PROFILE

I have been working as an IT specialist for over five years, and I love every aspect of my job. I provide technical support and solutions to various clients and organizations, ranging from small businesses to large corporations. I troubleshoot and resolve issues related to hardware, software, networks, and security systems. I also install, configure, and maintain IT equipment and applications. I enjoy working with different technologies and learning new skills every day. I find it rewarding to help people and organizations achieve their goals and improve their productivity through IT.

EMPLOYMENT HISTORY

Research Analyst at Office of the Chief of Staff for Operations, OG3, Philippine Army, Taguig City

September 2021 — January 2024

Working for the Philippine Army as a Research Analyst, I am in charge of conducting and overseeing research projects that aim to improve the organizational structure and effectiveness of the military. I analyze data and information from various sources, such as surveys, interviews, reports, and statistics to identify issues and opportunities for improvement. I also design and implement solutions and recommendations based on the research findings. I collaborate with other analysts, officers, and stakeholders to ensure the quality and relevance of the research outcomes. I take pride in contributing to the development and innovation of the Philippine Army.

IT Specialist at Technomed International Inc., San Juan City

June 2019 — September 2021

As an IT Specialist at Technomed International Inc., I am responsible for maintaining and troubleshooting the IT infrastructure of a leading healthcare company. I manage the servers, networks, databases, and security systems that support the daily operations and data management of the organization. I also provide technical support and training to the staff and clients who use the IT systems. I enjoy working in a dynamic and challenging environment where I can apply my skills and knowledge to solve problems and improve efficiency.

OJT at United Limsun International Trading Corp., Quezon City

November 2018 — March 2019

Working for the first organization helped me develop the technical and analytical skills that I needed to join a fast-paced company that provide service, manpower, and quality products to our consumers.
